Mr. Marine General, Chairman

Alexandria Container & Cargo Handling Company

Greetings,

With reference to your letter No. 8748 dated 24/09/2020 to which the amended financial statements are attached after the approval by the Company's Board of Directors on 22/09/2020.

Please find attached the following documents:

1. Auditor's report of the financial statements amended on 30/6/2020.
2. An independent verification report on the extent of the Company's implementation of corporate governance rules for the financial year ending on 30/06/2020.

Please take the necessary actions and let us posted with.

Best Regards

Date: 29/09/2020

**The Auditor's report on the amended financial statements of
Alexandria Container & Cargo Handling Company on 30/06/2020**

To the shareholders of the Company

Report on financial statements:

We have reviewed the financial statements "attached" on 30/06/2020 for the Alexandria Container & Cargo Handling Company (an Egyptian subsidiary joint- stock company subject to the provisions of Law 203 of 1991) exemplified by the list of financial position on June 30, 2020, the total assets of which amounts to about 4921,361 million pounds, with a list of income for the period ending on June 30, 2020, with a net profit after tax amounting to about 1,493,379 million pounds, as well as the comprehensive income statement, the two statements of cash flow, the change in ownership rights for the financial year ending on the same date, and a summary of important accounting policies, and other clarifications.

Management's responsibility for the financial statements:

These financial statements is the responsibility of the Company's management. The management is responsible for preparing and presenting the financial statements fairly and clearly under the unified accounting code and its amendments and the Egyptian accounting standards issued by the Minister of Investment's decision No. 110 of 2015 issuing the Egyptian accounting standards, and in light of the

Egyptian laws in force. The Management's responsibility also includes the design, implementation, and maintenance of internal control related to the preparation and presentation of financial statements fairly and free from any significant and influential distortions, whether resulting from fraud or error. This responsibility further includes adopting the accounting policies which are appropriate to the current circumstances.

Responsibility of the Auditor:

Our responsibility is limited to expressing an opinion on these financial statements in light of our review thereof. Our auditing work has been done under the Egyptian auditing standards and in light of the Egyptian laws in force. These standards require the planning and performance of the audit to obtain appropriate assurance that the financial statements are free from any significant and influential errors. The audit work includes performing procedures to obtain audit evidence about the values and disclosures in the financial statements. The procedures chosen depend on the personal judgment of the Auditor. This includes the assessment of the risks of significant and influential misstatement of the financial statements, whether resulting from fraud or error. When assessing these risks, the Auditor shall take into account the internal control related to the establishment's preparation of the financial statements and their fair presentation to design audit procedures appropriate to the current circumstances rather than expressing an opinion on the efficiency of the internal control in the establishment. The review process also includes evaluating the appropriateness of accounting policies and the important

accounting estimates that have been prepared by the Management as well as the integrity presentation of the financial statements. We believe that the audit evidence that we obtained is sufficient and appropriate and is a suitable basis for expressing our opinion on the financial statements.

The basis for the conservative opinion:

1. The total balance due on customers in 30/06/2020 was about 165.085 million pounds, and we have noticed the following:
 - The balance included about 2.736 million pounds being the value of suspended debts dating back to 1998, with lawsuits filed in this regard according to the statement submitted by the Company, against a provision of about 2.760 million pounds, i.e. with of about 24 thousand pounds increase.
 - Clients make advance payments, which caused the inability to identify the outstanding bills, which may evoke a dispute with the clients. These payments have not been disclose in the Company's accounts.
 - The Company did not conclude contracts about handling of full containers with major clients to define the obligations and rights of each party. Examples of these clients include Arkas and Maersk.
 - The Company does not have a credit list specifying the grace periods granted by the Company to the clients to pay their debts, as well as the late-charges due in the case of non-payment within the specified periods.

- The insufficient value of the guarantee letters obtained by the Company from the clients to cover the value of the debts due by these clients on 30/6/2019. Examples of this are:

Client's name	Due indebtedness	The percentage of debt to the total client balance	The value of the letters of guarantee	The percentage of the guarantee to the debt
Mediterranean Agency	62531298	38%	1500000LE	2,4%
Arkas	16126977	10%	250000LE	1,6%
Arabian Gulf	16799552	10,2%	713122LE	4,2%
Hapag Lloyd	18395012	11%	+LE 2000000 US\$ 100000	19,6%
CMA	13568645	8,2%	LE 1850000	13,6%
Barakat and Ghalib	10352055	6,3%	250000 LE	2,4%

The reasons for this must be studied with the necessity to set credit limits and define periods for collecting the Company's dues, taking into consideration the proportionality of letters of guarantee with the debts due by clients.

2. The client's account included a sum of 362008 pounds due on the National Navigation Company on 30/06/2020. An authentication of this matter is received from the client stating that the amount due thereto was only 118381 pounds, with a difference of 243627 pounds.

The reasons for this must be verified and the necessary settlement should be made in this regard.

3. The investment balance in treasury bills on 30/06/2020 amounted to about 45.843 million pounds, representing the value paid for the purchase of treasury bills, while they had to be shown at their recoverable value on the date of the financial position amounting to about 47,626 million pounds according to Paragraph No. (46-b) of the Egyptian Accounting Standard No. 26 “Financial Instruments - recognition and measurement” with a difference amounting to about 1,783 million pounds. This was incorrectly shown by calculating receivable revenues.

The necessary correction should be made, taking into account the detailed disclosure of this in the explanatory notes attached to the financial statements.

4. No matching was made between the Company and the General Authority of Alexandria Port on the credit balance amounting to about 22,677 million pounds on 30/06/2020. The last match with the Authority made on 28/10/2019 has resulted in a difference of about 36,917 million pounds for which lawsuits have been filed with the General Authority of Alexandria Port. Besides, the Company has rejected to pay about 704 thousand pounds of debts owed on the site 32 on the basis that the Company delivered it to the General Authority of Alexandria Port during the period from 01/04/2019 to 30/06/2019. An allocation of about 35,737 pounds was formed to

confront these differences, and this was included in the allocation account for judicial disputes with other allocations.

The necessary matching should be carried out, and resolving the disputes with the General Authority of Alexandria Port should be expedited.

5. The fees owed to the General Investment Authority for the revenues of the free zone during the period from 01/07/2019 to 30/6/2020 which affected the income statement for this period were about 39,425 million pounds. It was evident that the Company has used to calculate the fees of the General Investment Authority every six months by calculating the value of the dollar according to the exchange rate at the end of the financial period and the settlement is done at the end of the financial year based on the exchange rate on 30/06 of each year without calculating the value according to the date of the transaction or the average price during the year according to paragraphs 39 and 40)of the Egyptian Accounting Standard No. (13). These changes have affected the foreign exchange rates.

The necessary correction must be made in this regard.

6. There were about 26,194 million pounds, a balance owed by the General Authority for Investment and Free Zones, not having been matched. Besides, there were about 1.52 million pounds, is the value of 1% of the revenue, which amounted to about 152.06 million pounds, not having been settled as a result of the work of the committee formed under the Administrative Order No. 616 of 2019

to count the revenues of the head office for the years from 2013/2014 to 2017/2018.

The settlement and the necessary matching should be done to verify the correctness of the balance on 30/06/2020.

7. The balance of the provision for judicial disputes amounted to about 54,843 million pounds, and the study of the provision did not show the litigation levels that the cases have reached. The statement of lawsuits submitted by the Company guarantees that all cases are expected to be won without specifying the probability of winning or losing each case, as it is possible to verify the validity of the provision formed following the requirements stipulated in Paragraph No. (14) of the Egyptian Accounting Standard No. 28 “provisions, assets, and the potential liabilities”.

We must be provided with a detailed study of the allowance to judge the sufficiency thereof.

8. Our observation still exists regarding the severe weaknesses and shortcomings in the internal control system, financial audit, and the internal control procedures of the Company, as well as the absence of a cost system that serves as a tool of internal control.

The main deficiencies were as follows:

- Allowing residents' cars to enter the Alexandria and Dekheila stations, resulting in damage to some of the containers and the Company's equipment, and theft of the contents of some

containers, including 19 Lipton tea cartons on 20/07/2019 at the Dekheila Container Terminal as a result of the lack of cameras to monitor the lanes of the station yards, a report of 3 cases was issued. On 21/07/2019, there was also a case of theft of 7 copper rolls on 11/06/2020 at Alexandria Container Terminal, and the report No. 542/2020 was issued on the incident by the misdemeanor of the Port.

- The theft of 32 black pepper sacks, each weighing 25 kg, from the container belonging to the Al-Rowad Company at the Dekheila Container Terminal. The incident was discovered on 13/06/2020 and a police report No. 621/2020 was issued by the Port Administrator on 16/06/2020.
- An incident of dispensing false prescriptions from a pharmacy with the names and codes of some of the Company's employees during January and February 2020 amounted to 103 prescriptions for a total amount of 16,457 pounds with the knowledge of a printing technician in the Company
- The purchase of some supplies and spare parts according to account statements in the Dekheila and Alexandria container terminals from the permanent loan while the purchase should inherently be made through a tax invoice under Article No. (12) of the Value Added Tax Law No. 67 of 2016, Article No. (13) of the implementing regulations of the same law, Article 78 of Law 91 of 2005 pertaining the general income tax, and Articles 99 bis 1 and 99 bis 2 of the implementing regulations of the same law.

- Paying a sum of 8500 pounds/month for 17 drivers in the Company against the scratches afflicting the private cars and minibuses in garages outside the Company, without garage receipts supporting such a disbursement, which leads to the lack of tight control over the expenses and the failure to tighten control over the operation of these cars.

The Company has formed a committee to develop the Company's internal control system according to the decision No. 54 issued on 15/04/2020 by the Company's Board of Directors, as well as another committee to develop the cost system according to the decision No. 83 issued on 18/06/2020 by the Company's Board of Directors

The necessary measures towards addressing the deficiencies and weaknesses should be urgently taken with the development of the internal control system and the cost system to achieve control and monitor performance.

The conservative opinion

Except for the impact of the foregoing on the financial statements, we perceive that the above-mentioned financial statements express fairness and clarity in all its important aspects regarding the financial position of Alexandria Container & Cargo Handling Company on June 30, 2020, and its financial performance and cash flows for the financial year ending on that date, according to the Accounting Standards issued by Minister of Investment Decision No. 110 of 2015 and in light of the relevant Egyptian laws and regulations.

While this is not considered a reservation, we make the following:

The fixed assets and stocks have been subject to inventory and its results were matched to the records on 30/06/2020 with the supervision of the Company and under its responsibility and our test supervision within the limits of the available facilities. The depreciation was also calculated under the rules and rates and the Company's Board of Directors has issued the decision No. 165 dated 16/09/2019 approving the amendment of productivity terms and the shelf life of the assets and equipment under the proceeding No. 271 of the Committee in 2018, with the application thereof to take place as of 2019/2020 as is the case in previous years.

The following are the most important notes:

1. The Canal Company for Ports and the major projects undertaking the deepening the platform # 96 of Dekheila Container Terminal have not been claimed for the loss of any profits due to the delayed implementation of the project, which was scheduled to be completed on 29/10/2016.

The Company executing the project should be required to pay the fines for the delayed implementation of the project and the loss of earnings, to reserve the Company's rights.

2. The spare parts inventory included stagnant items since previous years, amounting to about 1.104 million pounds. This value was not estimated based on cost or net recoverable value,

whichever is less, in violation of paragraphs (9, 28, and 34) of the Egyptian Accounting Standard No. 2 (The Stocks).

The provisions of the standard in this regard must be adhered to with the economic disposition of these items so that they do not represent idle funds.

3. The Company has incurred about 54.071 million pounds of currency difference losses during the financial year 2019/2020 as a result of the devaluation of the dollar. In this regard, we note that the Company has incurred a loss of currency differences of about 113.351 during 2018/2019 and 2017/2018.

The necessary measures must be taken to limit the effects of the dollar's devaluation, given that the Company kept about 92.241 million dollars on 30/06/2020, due to its impact on business results.

4. The revenues of the current activity during the period from 01/07/2019 to 30/6/2020 amounted to about 2.584 billion pounds compared to about 2.928 billion pounds during the same period of the previous year, i.e. there is a decrease of about 344 million pounds (11.7%) due to the decrease in some revenue items The most important of these items are storage, unloading, yard services, and the decrease in the dollar exchange rate from 16.65 pounds in the previous year to 16.07 pounds in the current year, as well as the decrease in the number of containers by 6% compared to the previous year, with the resulting decrease in wages by 1.8% from the previous year, considering that the

wages represent about 49% of total costs and expenditures and about 23% of the revenues of the current activity. We have come up with the following particulars:

- The wages included about 106.7 million pounds, which is the value of the incentive of the standard performance rate during the period from 01/07/2019 to 30/6/2020, calculated at 5% of the sum of 2.134 billion pounds, which represents the value of the increase in the revenues of the current activity on 30/06/2020 from the standard performance rate set by the Company at 450 million pounds annually based on the average revenues of current activity during the ten years from 2004/2005-2013/2014. This has taken place under the Company's Board of Directors' decision No. 161 dated 17/08/2016. The decision has prompted the Board of Directors to reconsider this rate in light of the various variables. This, however, did not happen despite the liberalization of the exchange rate on 03/11/2016, the increased tariff, and the great development in the Company's revenues, which represent 57.4% of the value of the standard performance rate set by the Company.

We recommend reviewing this rate in light of the above.

- The wages account was charged a sum of about 62,500 million pounds, **being the value of an incentive bonus (21 months) for the Company's workers** for the period from 01/07/2019 to 30/06/2020 under the entry No. 4013 dated 30/06/2019 with the

approval of the Company's Board of Directors in session No. 7, memorandum No. 84 on 18/06/2020. This was similar to the previous year, where workers were granted an incentive bonus amounting to about 59,200 million pounds as per the deed No. 4433 dated 30/06/2019. The Company's administrative regulations did not include this, and the presented memorandum included granting a reward of 21 months to the Company's employees similar to the previous year and this was above the Company's budget to motivate them to exert more effort and maintain the same or better results during the year 2020/2021 **despite charging the wages account a sum of 71.7 million pounds as a reward for distinction for the year 2019/2020 and the decreased number of containers handled by 6.2 % compared to the previous year.**

The matter should be presented to the general meeting of the Company for approval.

5. The balance of the investment account in other companies on 30/6/2020 amounted to about 77.196 million pounds, and we have come up with the following particulars.
- The account included 78.014 million ponds, which is the value of investments in companies (Memphis Shipping Agencies, Amoun Shipping Agencies, Abu Simbel and Tiba Shipping Agencies, the Egyptian Company for Maritime Navigation, the Egyptian

Company for Integrated Projects - El Torgoman Group) that were impaired in previous years.

- The account included about 12.196 million pounds of investments in the Egyptian Company for Integrated Projects (El Torgoman Group). The impairment of those investments has not been studied even though the total losses of the Company, according to its financial statements on December 31, 2017, amounted to 70.461 million pounds.
- A certificate was received from the Egyptian Company for Maritime Navigation on 26/8/2020, indicating that the investment value amounted to only 2 million pounds, while its true value reached about 9.714 million pounds, which was totally impaired in previous years, The following has been found:
 - a- The Extraordinary General Assembly of the Egyptian Navigation Company decided on 02/02/2020 to place the Company under liquidation as of 31/03/2020 and to appoint a liquidator. We have not been furnished with its financial statements on the date of the beginning of the liquidation, in violation of Article 142 of Law No. 159 of 1981 and its amendments.
 - b- The balance of the interest-free loan granted to the Company in installments with the approval of the Holding Company for Maritime and Land Transport without obtaining sufficient guarantees has amounted to about

11.075 million pounds, which has been completely depreciated.

- c- The debit balance account included about 257 thousand pounds owed by the Egyptian Navigation Company, which is the value of the Company's share in the obligations due on the Egyptian Navigation Company, exemplified by the wages of labor, social insurance, and others, according to the Company's Board of Directors decision No. 72 dated 16/05/2020, has been completely diminished.

- The Company did not achieve any profit from all investments.

It is necessary to study the economic feasibility of these investments and to inform us of the financial statements of the Egyptian Company for Maritime Navigation at the date of the beginning of the liquidation under the provisions of the law in this regard, and determine the responsibility for granting a loan thereto without guarantees.

6. The Company has not, to date, obtained from the General Authority of Alexandria Port a license to practice the storage activity despite the approval of the Company's extraordinary general meeting on 11/11/2019 to amend the Company's purpose in the articles of association by adding the storage activity.

We must be informed of the reasons for this.

7. The registration of the Company's common share in the purchased land under the control of Al Balina, Sohag Governorate, has not been completed since 2008, and its value is listed in the real estate investment account at about 2.413 million pounds.

We recommend the expedition of registering the land in the name of the Company.

8. The Chairman of the Alexandria Free Zone has issued the decision No. (7) of 2020 on 17/07/2020 amending the text of Article No. (6) of the Resolution No. (460) of 2005 dated 16/01/2005 by adding the external yards of the headquarter to authorize activity practiced in the private free zone system, without having the activity of the common warehouse of the headquarter included in the decision

We recommend the General Investment Authority to add the common warehouse activity to the free zone as a complementary activity to the original activity of the Company, pursuant to Article No. (49) of the Labor Code within the free zones issued by the Minister of Investment and International Cooperation Resolution No. 29 of 2019 dated 16/01/2019.

9. The number of discarded containers inside the yards at Alexandria and Dekheila terminals during the period from 01/07/2019 to 30/6/2020 amounted to 2000 containers according to the Company statement, some of which date back to 1994. These data included the names of most agencies and stakeholders

related to these containers. These agencies have not been withdrawn and the Company's dues thereof have not been collected. This was due to the failure to implement the provisions of Articles (126, 128, and 130) of Customs Law No. 66 of 1963 and its amendments, which resulted in the existence of unused storage yards for which the Company bears the usufruct value, in addition to the wages of the workers assigned to follow up the movement of these containers. It was also found that there are 7,791 discarded parcels inside the common store since 1997, occupying an area of about 5,000 square meters (31% of the total warehouse area of 16,000 square meters).

It is necessary to withdraw those containers and parcels of the agencies and owners and to have the Company's dues paid, with the necessary measures to be taken for the speedy activation of the provisions of the Customs Law and its executive regulations in this regard.

10. The net loss of the Headquarter on 30/06/2020 was about 46.388 million pounds, compared to a net profit after tax on 30/6/2019 of about 51.255 million pounds. This difference was attributed to:

- A decrease in the revenues of the Headquarter activity by about 53.480 million pounds compared to the previous year where they were decreased by only 21.4%, without knowing the reasons for that.

- Charging the income statement of the Headquarter with a sum of about 9,896 million as donations to third parties, without specifying the free zone share thereof.
- The values of the rents, storage expenses, sorting, and wages have been charged to the yards of the Headquarter during the financial year 2019/2020, amounting to about 159.675 million pounds (81.3% of the activity revenues of the Headquarter).
- The Company has included in the Headquarter expenses a sum of about 16.873 million pounds (15.86% of the total administrative and financing expenses at Alexandria station) in proportion to the number of the containers of the Headquarters of Alexandria to the total number of containers handled at the Alexandria station during the period from 01/07/2019 until 30/6/2020. The Company has ignored the Dekheila station's share of those expenses in and did not presented it to the Board of Directors as being the authority issuing the financial statements under the articles related to the implementing regulations of Law 203 of 1991 regarding the public business sector. This procedure was done for the first time on 30/06/2019 without study in light of the absence of a cost system in the Company.
- The Headquarter was charged with a sum of 21.714 million pounds, being the estimated value of the cost of cranes and tractors operating in the free zone on the basis that they operate in the Headquarter. These estimates relate to the period from 01/07/2019 to 30/06/2020 for the spare parts, maintenance

expenses, oils, fuel, and the estimated wages of the drivers of these cranes and tractors. However, they do not reflect the actual direct expenses related to the Headquarter.

We must be informed of the reasons for this, along with studying all the above-mentioned expenditures and making the necessary correction, taking into account their impact on the correctness of the calculation of the tax due to the activity of the Headquarter.

11- The issuance of judgments in favor of the Company without knowing their effects on the financial statements of the Company on 30/06/2020. The amount that could be counted was about 583 thousand pounds plus the prescribed interests, in addition to about 979 thousand pounds for the value of tax lawsuits (30640/68 Judicial and 36320/69 Judicial- Liner Tax) in respect of which judgments were rendered in favor of the Company. These judgment are still pending to date.

All necessary legal measures must be taken towards the implementation of these provisions to preserve the Company's rights.

12. The Company has violated the provisions of Article (2) of the Decision No. (11), issued by Minister of Public Business Sector on May 9, 2016. That is, the Company has used some retired workers to perform some work without concluding contracts therewith. The total amount disbursed to them according to the Company statement was 199,300 pounds.

The provisions of the decision of the Minister of Public Business Sector and the Social Insurance Law in this regard should be adhered to.

13. We still notice that the Company incurs a sum of of about 12.191 million pounds, being the value of the incentive for exceeding the standard performance rate as decided by the Company's Board of Directors in its decision No. 161 dated 17/08/2016. The incentive amounted to 243.825 million pounds (total earnings) and was included by mistake in the current activity revenues of 2017/2018 while it should have been included as compensation and fines obtained by the Company as a result of the accident of two cranes at the platforms 2010 and 2011 of Al-Dekheila Container Terminal on 11/11/2017.

Responsibility must be determined.

14. The Company incurs a sum of 15838 pounds per month as a result of the Company delegating a legal advisor for some time from the State Litigation Authority upon the request of the General, Chairman of the Company, and the Managing Director and after the approval of His Excellency the Minister of Justice, with such a delegation being renewed annually as of 10/11/2016 until 09/11/2020. We have come up with the following points:

- There is no provision for this in the Public Business Sector Law No. 203 of 1991 or the Joint Stock Companies Law No. 159 of 1981. Besides, the eleventh article of Law No. 203 of 1991

stipulates that “the companies may request the State Council, through the competent minister, to express a justified opinion on matters related to the affairs of its employees or members of its boards of directors, or other matters related to any of its affairs.

- There is a legal department in the organizational structure of the Company.

We recommend that the matter be brought before the State Council to express a legal opinion in this regard.

15. The Company has issued invoices to clients with the value of the storage service included over a “grace period” of zero, without charging the client with the value of VAT No. 67 of 2016 despite the Company’s issuance of the invoice in a way that creates the tax event under the provisions of Article (5) and Article (1).

The opinion of the Tax Research Sector should be sought in this regard, with this matter to be reported to us.

16. The credit accounts have included a sum of 301,993 pounds belonging to private-sector shareholders since 2009. Article No. 147 of Law No. 91 of 2005 regarding the income taxes requires that all amounts and values in which the right of their owners have been forfeited by the statute of limitations shall be transferred to the public treasury under a final statute of limitations described after the profits and returns resulting from

negotiable shares and bonds issued by any Company, authority, or public or private body.

The provisions of the law must be adhered to in this regard.

17. The insurance account with third parties has included about 33 thousand pounds owed by the General Authority of Alexandria Port. It was found that the Authority has deducted this amount from the debts owed by the Company, according to the Authority's letter No. 6284 dated 13/07/2020.

The necessary settlement should be made in this regard.

18. A Volkswagen Passat Trend Plus car, model 2019, has been purchased from Misr Auto Trade Company, at 488,500 pounds. This indicates a lack of rationalization of spending, especially since the Company has purchased Nissan Sunny cars, model 2020, at 211 thousand pounds per car.

Spending should be rationalized.

Report on other legal and regulatory requirements:

1. The amount disbursed to the sports committee according to the distribution account for the financial year 2018/2019 and approved by the ordinary general meeting of the Company on 11/11/2019 amounted to about 26.702 million pounds (1.5% of the distributable profit) in violation of Article No. (51) of the

Sports Law No. (71) for the year 2017 which allocated this percentage only to the budget of the sports club and not the sports committee. In the advisory opinion of the general meeting of the advisory opinion and legislation sections of the State Council (File No. 58/1/461 issued to His Excellency the Minister of the Public Business Sector with No. 829 on 05/06/2018), it was concluded that it is unlawful to deduct the percentage in favor of the sports committee starting from the date of the implementation of Sports Law No. (71) for the year 2017, which has been into force as of 01/06/2017.

The effect of this must be taken into consideration on the profit distribution account for the financial year ending on 30/06/2020 under the provisions of the Sports Law and in light of the fatwa issued in this regard.

2. We did not compute the proposed adjusted profit distribution account. The balance of the loss account, which appears in the financial position statement on 30/06/2020, has a sum of 43.376 million pounds.

The amount should be excluded from the balance of distributable profits, as this has an impact on the validity of the dividend distribution.

3. Law No. 185 of 2020 for the Public Business Sector No. 203 of 1991 has been issued. Article (5) of this law stipulates that companies subject to the provisions of the aforementioned Public

Business Sector Law should settle their conditions under the provisions of this law, including their articles of association, and form their general meetings and boards of directors within a period not exceeding one year from the date of enforcing this law. It was found that the legal period of the Company's Board of Directors had ended on December 31, 2018, and the Company's ordinary general meeting on 04/04/2019 has approved the decision of the Board of Directors of the Holding Company for Maritime and Land Transport in its meeting on 18/01 2019 regarding the approval of having the Company's Board of Directors practicing its work in its present formation until the new board is formed and presented to the Company's general meeting in a next session.

4. The provisions of the circular note No. (2) of 2019 issued by the Financial Supervisory Authority on May 26, 2019, regarding the regulation of the use of non-cash plans of payment in completing financial transactions for non-bank financial institutions, have not been implemented under the provisions of Law No. 18 of 2019 regarding the regulating of the use of non-cash plans of payment. It was found that about 122.554 million pounds have been collected in cash from the Alexandria station clients.

The provisions of the law and the circular note referred to in this regard should be duly implemented.

5. It was found that the Company has leased the yard # 66 from the Arab Shipping and Unloading Company in Alexandria Port in violation of Article No. (40, Paragraph 8) of the Minister of Transport Decision No. 800 of 2016 which stipulates that the licensee may not assign this license to third parties. The value of the rent charged to the income statement is for the period from 01/07/2019 to 30/6/2020 has amounted to about 6,347 million pounds.

The decision of the Minister of Transport must be adhered to in this regard.

6. The 'session minutes of the Company's Board of Directors have not included the discussions of the members of the board, but have included only the decisions issued, which violates the provisions of Articles (81 and 75) of Law No. 159 of 1981.

The provisions of the law must be adhered to in this regard.

7. The account balance on 30/06/2020 was about 139 thousand pounds, which is the surplus of the Company's Board of Directors' remuneration for the year 2018/2019.

The surplus of the Board of Directors 'remuneration must be redistributed to the shareholders under the fatwa of the General Meeting of the Fatwa and Legislation Sections of the State Council, File No. 255/1/47 dated 05/03/2007.

8. The Company's cost system does not fulfill its purpose and needs further development to monitor and evaluate performance and meet the Company's needs for the information necessary for monitoring, planning, and performance evaluation. The Company has formed a committee to develop the cost system according to the Company's Board of Directors decision No. 83 of 18/06/2020.

The financial statements provided in the Company's Board of Director's report that was prepared under the law #159 for the year 1981 and its amendments and implementing regulations are in agreement with all that is contained in the books of the Company, within the limits in which such data are recorded in the books.

**The Holding Company for Maritime and Land Transportation
Alexandria Containers and Cargo Handling Company
Egyptian Joint- Stock Company**

Complementary notes on the financial statements as of 30/06/2020

First: Company profile:

Company's name / Alexandria Containers and Cargo Handling Company,
One of the companies affiliated to the Holding Company for Maritime and
Land Transportation.

Legal form:

An Egyptian subsidiary joint-stock company established under the
provisions of the General Labor Sector Companies Law No. 203 of 91 and
the implementing regulations thereof, registered in the commercial registry
on 09/05/1984 under the number 111502. Company's age: 50 years from
11/06/1984 to 10/06/2034, listed on a stock exchange on 16/08/1995.

On 16/01/2005, the Vice-President of the General Authority for Investment
and Free Zones has issues the resolution No. 460 of 2005 authorizing the
Alexandria Containers and Cargo Handling Company branch to operate
under the free zones system at two container plants, namely Alexandria and

Al-Dekhaila and to undertake the management of multi-purpose plants. The license was renewed from 15/01/2020 to 15/01/2025 by resolution No. 7 dated 02/07/2019.

The company's activity under its articles of association:

The purpose of the Company is to handle containers and goods at Alexandria and Al-Dekhaila port at the site designated by the General Authority of Alexandria Port; to transport containers and goods to and from the port; to manage and operate the multi-purpose plants within and outside the different ports; and to do customs clearance and practice real estate investment activity in all forms either by itself, by agency, or jointly with others. In doing so, the Company may obtain the necessary licenses to practice such activities and to enter into contracts with engineering consulting offices, construction companies, and all companies operating in this regard. The Company may also contribute to companies operating in other fields. The license has been extended for 15 years from the end of the license on 24/06/2020. The storage has been added to the company activity. The financial statements are prepared yearly from 01/07 to 30/06.

- The Company adheres to the environment-related stipulations provided for in Law No. 4 of 1994, as amended by Law No. 9 of

2009, and should demonstrate its commitment to all environmental conditions in terms of:

- Maintaining a record of the Company's impact on the environment according to Annex No. (3) of the implementing regulations of Law No. 4 of 1994.
- The commitment of the Company to the standards and specifications for liquid waste when disposed into the sea in accordance with Appendix No. (1) of the implementing regulations of Law No. 4 of 1994, where:
 - The company has 5 wastewater treatment plants with a capacity of 170 cubic meters per day
 - The company has 2 industrial wastewater treatment plants with a capacity of 24 cubic meters per day
 - Safe disposal of solid waste and garbage by the General Wastewater Authority and specialized companies.
 - Reducing air pollutants through continuous maintenance of the Company's equipment, whether being old or new.
 - Maintaining the cleanliness of the floors of the yards and workshops, and using the necessary materials to remove the residual oils from the ground.
 - Using a fire alarm system.
 - Using safety and security methods to protect workers and work corridors.

- Adopting the rodent and insect control system by contracting with the Ministry of Health to carry out the control process on a monthly basis.

In addition to the above, the Company holds three types of ISO certificates:

- 1- Quality Management System ISO 9001 - 2015, valid until 12/07/2021.
- 1- Occupational Health and Safety System ISO 45001 – 2018, valid until 28/04/2022.
- 2- Environmental Management System ISO 14001 – 2015, valid until 14/02/2022.

Signed/ -----

Company Auditor: the Central Auditing Organization, Maritime Transport Accounts Control, Talaat Harb St., Alexandria.

Second: The most important accounting policies used:

Principles of preparing the financial statements:

The financial statements are prepared in accordance with the continuity assumption, the accounting accrual basis, and the historical cost principle.

Compliance with accounting standards:

The financial statements are prepared in accordance with the Egyptian Accounting Standards issued by Minister of Investment Decision No. (110) for the year 2015 and the applicable laws and regulations.

Accounting policy changes:

The accounting policy used since 2005 is to separate the Company into a free zone branch and a headquarters, with the latter to incur the operating expenses and some general and administrative expenses.

Foreign currency translation

The aggregate financial statements are prepared and presented in the Egyptian pound, which is the Company's functional currency.

Transactions in foreign currencies are documented in the Egyptian pound, and the profits and losses resulting from their re-evaluation are recorded in the income statement. Purchases are listed in foreign currency at the exchange rate in the date of purchase, and customer revenues are listed at an average exchange rate for the month, with the last period balances in foreign currency to be evaluated at the exchange rate on the date of the financial statements. The profits/ losses resulting from the currency differences are charged to the income statement.

Taxation policy:

The Company shall submit an annual tax declaration on the results of the headquarters business. The company also has a branch operating under the free zones system at Alexandria and Al-Dekhaila ports that are not subject to all taxes and fees in force in the Arab Republic of Egypt as postulated in Investment Law No. 72 of 2017. The tax declarations are provided on labor tax, stamps, and VAT which are paid for all the Company's transactions in the Headquarter and the free zone branch.

- **Income tax:**

The income taxes due for the accounts of the Headquarter shall be calculated in the light of Law No. 91 of 2005 and its implementing regulations and all subsequent decisions and periodic letters, and in accordance with the regulations and instructions in force in the Arab Republic of Egypt. These taxes shall be documented in the income statement of the Headquarter with the potential tax obligations to be established after conducting the necessary study and in the light of the tax claims.

- **Deferred taxes:**

The deferred tax is the tax that arises from the existence of some temporary differences resulting from the difference in the financial period in which the value of some assets and liabilities is accredited among the applicable tax rules and the accounting principles for which the financial statements are prepared.

The deferred tax was regarded as an asset because of the possibility that this asset can be used to reduce the taxes due to the Company during future years. The deferred tax shown here as an asset to the Company shall be reduced by the value of the portion that will not be achieved from the expected tax benefit during the following years. However, in the event of an increase in the expected tax benefit, the tax assets shall then be increased in proportion to what has already been reduced.

The deferred tax assets or tax liabilities shall be calculated at the end of the financial year and at the time when the budget is prepared.

Fixed assets:

The fixed assets are expressed as the historical cost after deducting the total depreciation and are listed at the acquisition cost thereof and all the expenses necessary to prepare the asset for operation. In accordance with Standard No. (10) Paragraph (10), the facility shall evaluate its assets on the basis of

the cost at the time of their occurrence, and the acquisition cost shall include the expenses that are spent later to add or replace part thereof.

The depreciation of fixed assets shall be calculated using the straight-line method where the asset is in its place and original condition, and where the use thereof can bring economic benefits to the facility. As for the depreciated assets which are still operating, no depreciation shall be accounted.

The productive life of major groups of fixed assets shown in the financial statements:

According to Standard No. (10) Clause (57), the estimated productive life of the asset is determined through the expected use thereof by the facility.

The estimated productive life of the major groups:

Buildings and structures	from 10 to 20 years
Machinery and equipment	from 6-7 to 10 years
Means of transportation	from 10 to 20 years
Office furniture and equipment	from 5 to 10 years

The productive life and the scrapping value of the Company's transportation means have been modified based on the committee's decision No. (271) of 2018 in cooperation with the College of Engineering and according to the Egyptian accounting standards. Depreciation expense decreased: 21 million LE due to the modification of the productive life.

- There are no restrictions on the Company's assets against loans.

Devaluation of the assets:

- The book value of the assets owned by the Company shall be reviewed at the budget date to determine whether there are any indications of a decrease in their value. In the case having these indications existed, the necessary studies shall then be prepared to determine the expected recovery value.
- The losses resulting from the devaluation of the assets shall be recorded if the book value of the asset and its cash-generating unit exceeds the recoverable value, and shall be included in the income statement.
- In the case of increasing the recoverable value of the assets, the losses resulting from the devaluation of the assets shall be refunded only to the extent that the book value thereof is not increased. This shall be

determined after deducting the depreciation and amortization, without deducting the devaluation of the assets.

- **Projects under implementation:**

- These are exemplified by the amounts that have been spent for the purpose of creating or purchasing fixed assets until they are ready for use in operation. They are then transferred to the fixed assets item and the projects are then valued on a cost basis.

- **Long-term investments:**

- The investments have been reported in the financial statements based on the acquisition cost minus any devaluation losses if any.

- **Stocks**

- The stocks consisting of fuel, spare parts, materials, and equipment shall be evaluated on a cost basis, and the expenses shall be calculated on the basis of the weighted average.

- **Traded investments and securities:**

- The book value of the traded investments shall be determined on the basis of the purchase cost and shall represent one of the investment assessments.
- **Cash and the like:**
 - For the purpose of preparing the cash flow statement, the cash value and its equivalents shall include the treasury cash value, the current bank accounts, and the deferred deposits that are due within three months.
- **Capital management goals and policies:**
 - The Company shall manage the capital so that it can cover the operating demands, shareholders 'goals, and finance investments, either by covering the replacements and renewals or by strengthening its competitiveness with self-financing without the need for loans. The Company is currently conducting studies and research to add investments in new projects.
- **Reserves:**

- These shall be set aside in accordance with the laws, regulations, and decisions in force subject to the approval thereof by the general assembly and the purpose of each reserve. The reserve shall be used based on a decision issued by the general assembly in accordance with the proposal of the Board of Directors.

- **Appropriations:**
 - The appropriations shall be accredited when the Company has a current legal obligation resulting from a previous event, which entails an outflow of economic resources to settle the obligation, with the possibility of making a reliable estimate of the amount of the obligation. The appropriations shall be reviewed at the date of each budget and shall be determined to show the best current estimate. They shall be accredited in accordance with the Egyptian accounting standard No. (28), paragraph (1).

- **Transactions with related parties:**
 - The related parties are exemplified by both the parent company and its subsidiaries as well as the major shareholders and companies to which the Company contributes. The transaction terms and policies shall be approved by the Board of Directors.

- **Recognition of the revenues:**

- The revenues from rendering services shall be recognized based on the extent to which the transaction was executed at the end of the financial period for which final accounts and financial position are required (Standard 11). The following aggregate conditions should be satisfied:

- ❖ Accuracy of revenue measurement when the service is fully implemented.
- ❖ Achievement of the economic benefits of the transaction.
- ❖ Full registration of the costs related to the implementation of the service performed.

Expenses:

All expenses, including operating expenses, general and administrative expenses, and other expenses, are accredited and shall be included in the income statement of the financial year in which they were incurred.

- **Dividend:**

Profits shall be distributed at the end of the financial year after having the financial statements approved by the General Assembly at the end of the financial year in accordance with the provisions of Law (203).

Financial instruments risks:

a- Market Risks:

The Company works in the field of containers, in which there is competition from companies working in the same field. For this purpose, the Company makes the necessary facilities for customers and buy new equipment to provide distinguished services to attract new shipping lines.

b- Foreign exchange risk:

The Company shall maintain its balances in foreign currency to meet the funding requirements of investment plan projects to purchase new equipment from abroad in order to avoid the risk of fluctuations in foreign exchange rates and deal with several banks to obtain the highest interest for the deposits with credit facilities in financing. It is to be known that the Company shall re-evaluate the foreign currencies by the end of each quarter.

c- **Interest Risks:**

The choice shall be made between several banks to be dealt with in order to reduce the risk by linking deposits (Egyptian dollars) for a period of 1-3 months only at the highest prices available.

• **Employee benefits:**

- *Social insurance:* The Company shall make contributions to the General Authority for Social Insurance, and these contributions shall be calculated as a percentage of the employee salaries. The Company's obligations shall be limited to these contributions, which are charged to expenses when they are due.

- *End-of-Service Grant:* The Company shall give an end-of-service grant to its employees. The right to obtain these benefits is calculated based on the last salary and the length of service for the employees equals two and a half months and an appropriation shall be made for this matter.

- *Share of profits:* The employees of the Company shall get a share of the distributed profits not less than 10%. An amount not exceeding the

annual basic wages shall be disbursed in cash, with the excess amount to be excluded and deposited in the account of the services committee in order to finance employee housing projects or other social services (Law 203 of the business sector companies). Employees' share of profits will be modified according to the amendments of the Law 203 and its executive regulation.

- **Cash flow statement:**

- The cash flow statement shall be prepared using the direct method.

- **Items used in estimates and assumptions:**

As a result of the conditions of uncertainty that characterize the business activities, many items in the financial statements cannot be measured accurately, but they can only be estimated. The estimation process involves provisions based on the latest available and reliable information. The use of estimates is an essential part of preparing the financial statements and does not reduce the level of reliance on them. For example bad debts, inventory obsolescence, appropriations, and expected lifetime of the future economic capacity contained in the depreciable assets or the expected depreciation of these facilities.

Third: Detailed statements:

Multi-Purpose Terminals							
Total		12196200	1,565,220	65000000	650000	77196200	2215220

- The Company's share in the capital of the Egyptian Garages Company (Al-Turjuman Group) was increased by 652,200 pounds in fiscal year 2018/2019.
- The appropriation made during 2014/2015 for Memphis Company at an amount of 12,961,387 pounds was used and the remainder of the investment value of 11,243,237 pounds was deducted as extraordinary losses during the year 2014/2015.
- The value of the shareholding in Amoun Company was deducted as a result of calculating the value of the impairment of these investments and deducting them from the value during the financial year 2008/2009.
- The value of the shareholding in Abu Simbel and Taibah Companies was deducted as a result of calculating the value of the impairment of these investments and deducting them from the value during the financial year 2014/2015 at 15,404,623 pounds.

- The appropriation made during 2014/2015 was used for the Egyptian Navigation Company in the amount of 7,214,272 pounds, and the rest of the investment value was deducted by 2,500,000 pounds as extraordinary losses.
- The value of the contribution in the Egyptian Company for Garages (El Torgoman Group) was deducted as a result of calculating the impairment value of those investments and deducting them from the value during the financial year 2016/2017 at a sum of LE 1,456,000.

A 13% contribution was made to the capital fund of the Egyptian Group for Multi-Purpose Terminals (650,000 shares with a nominal value of LE 100 per share) from the share of the Holding Company for Maritime and Land Transport. The Board of Directors of the Egyptian Group for Multipurpose Terminals has decided to increase the Company's capital fund from LE 500 million to LE 2.2 billion and the shareholders have all approved the self-finance at 30% with borrowing at 70%.

The self-contribution in the Company's capital fund required from all shareholders amounts to a sum of LE 2.2 billion according to the cash flow schedule, and the share of a Company for handling containers and goods amounts to a sum of LE 273 million, of which LE 65 million were paid before the Company's capital increased. The remaining LE 208 million is due during the period from June 2020 to

December 2021 and the Company has already paid LE 17 million, which were listed in the debit accounts, note No. (10).

7- Long-term loans and receivables:

A sum of LE 11074800 was granted as an interest-free loan to the Egyptian Company for Maritime Navigation. A comprehensive impairment list was made for this loan in February 2020.

8- Assets held for sale:

These are exemplified by the cranes for the platforms numbers 2004 and 2005 in Dekheila.

9- Stock pricing and valuation:

The Company measures the value of the commodity stock based on cost and under the Standard No. (2) Paragraph (9), noting that the nature of the Company's stock consists of spare parts needed to carry out the repair and maintenance of equipment, which are specialized equipment whose spare parts, materials, and supplies are imported from abroad and are required for cleaning operations, etc. The pricing is based on the cost of purchase.

The items disbursed from the warehouse are priced using the weighted average method on all the stocks which are not offered for sale.

- The stagnant stock on 30/06/2020 amounted to LE 1,104 thousand and is evaluated according to cost or recoverable value, whichever is less when it is offered for sale.

10- Analysis of the balances of other debit accounts on 30/06/2020
(values are given in pounds)

Description	Amount
Other debit accounts	443329120
Credit accounts for agencies and organizations	997557
Insurances with third parties	194226
** Accounts payable for investment	17000000
Payables to purchase of fixed assets	6204244
Other credit accounts	75293
Total	467800440

- The other debit accounts amount to LE 26194124 owed by the General Investment Authority, and the amount of LE 256728 owed by the Egyptian Navigation Company is LE 41081999 deposited against letters of guarantee. The remaining amounts are owed by workers in the form of offenses and damages, the most recent of which are those caused by the drivers and workers in the Company's equipment, and the costs of training courses due to some workers, the taxes owed by workers, and the loans paid to the employees, all of which are deducted from them in monthly installments during the year.

** Accounts payable for the purchase of investments: A sum of LE 17 million was paid under the capital increase account of the Egyptian Multi-Purpose Terminals Company.

11- Treasury bills:

The treasury bills are used as one of the savings assessments for the available cash balances according to the interest rate as long as they exceed the interest rate of the deposit in conformity with the size of the available cash balances. The treasury bills shall be recorded at the purchase price and the proceeds shall be charged to the income statement according to the principle of entitlement.

12- Cash in banks and treasury fund

- The cash balance in the banks has reached a sum of 2583637955 pounds and includes:
 - Current bank: 252347236 LE
 - Treasury: 1401473 LE
 - Term bank deposits (Three month) 1849545830 LE
 - For the purpose of liquidity, the L/C coverage shall be excluded with deposits against credits of 410381999 LE.

Property rights-:

13- The authorized capital:

The authorized capital amounts to 1,000 million pounds

Movement of issued and paid-up capital and number of shares:

- The issued and paid-up capital amounts to 744,876,700 pounds and the nominal value amounts to 00.50 pounds per share, with the number of shares amounting to 1,489,753,400. The extraordinary general assembly has agreed on 13/08/2018 to divide the nominal value of the Company's share from five pounds per share to fifty piasters per share.

Distributed as follows:

Item	Number of shares	Contribution rate	Capital on 30/06/2020	Comparative capital on 30/06/2019
Holding Company for Maritime and Land Transportation	824865720	55.369%	412432860	412432860
Alexandria Port Authority	590400000	39.631%	295200000	295200000
Free trading	74487680	5.00%	37243840	37243840
Total	1489753400	100%	744876700	744876700

14- Reserves:

- Legal reserve:

A portion of the net profits shall be set aside at a rate of 5% of the net profit for the year in order to form a legal reserve. The General Assembly may suspend cessation of the appropriation of this legal reserve if it reached half of the issued capital. The legal reserve may be used to cover the Company's

losses and to increase the capital fund based on a decision by the General Assembly in accordance with the proposal made by the Board of Directors. The balance of 30/6/2018 has included a sum of 162,509,861.40 pounds being the value of the issuance premium on increasing the free trading shares to reconcile the situation.

- **Statutory reserve:**

A value of 20% shall be set aside to cope with the support the Company's financial position in accordance with the provisions of Article (45) of the company's articles of association.

- **Project Support Reserve:**

A portion of the net profits of the Company shall be set aside after the legal and statutory reserves, and a value of 5% of the capital fund shall be allocated to the shareholders and employees as an initial share, with a percentage of no more than 5% to be deducted for the members of the Board of Directors. This reserve shall be set aside to cover the support of the projects. The project support reserve has amounted to 374,704,167.11 pounds on 30/06/ 2020.

- **Capital reserve:**

The value of disposing of the fixed assets of the Company or compensating for it shall be allocated for bringing the assets of the Company back to their original conditions, or for buying new fixed assets.

❖ **Analytical statement of other reserves**

24- A statement of the tax situation as of 30/06/2020

First: Joint-Stock Companies Tax:

The works of the special committees for the years 2007/2008 to 2011/2012 have been completed and payment has been made.

For the years 2012/2013 to 2015/2016, the examination has been conducted. The Appeal Committee report include reexamine some items disputed in the internal committee a tax appropriation amounting to 3,000,000 pounds.

Law No. 10 of 2019 relating to tax treatment of treasury bills was issued. The company paid 787110 LE, despite of the headquarters losses.

The modified tax returns were prepared for the financial years 2013/2014 to 2017/2018. An amount of 41962899 LE was paid.

Second: Payroll tax

The tax examination has been completed until 2012 along with accounting and payment. The examination of the years 2013, 2014, 2015, 2016 and 2017 is underway. The year 2018 is under examination.

The tax settlement has resulted in financial differences paid in excess for the years 2013 and 2018 in amounts of 1,413 thousand pounds and 2,241 thousand pounds, respectively. This was due to the amendment of the provisions of the income tax law, which gave the financiers an increase in personal exemptions, as well as an increase in the value of the tax deduction for each segment. These differences will be settled upon completion of the tax examination work for those years.

Third: Stamp taxes

The examination was completed until 30/06/2015 and there are no claims or violations. The examination of the years 2015/2016, 2016/2017, 2017/2018 is underway. The year 2018/2019 is under examination

Fourth: Sales tax / VAT

- 1- The examination and accounting of the sales tax were completed until 2015/2016, and the years from 2016/2017 until 2018/2019 are under examination.
- 2- Concerning the liner taxes, case No. 12520 for the financial years 2003/2007 is being handled before the State Council Court and the Administrative Judiciary, and it was referred to the Ministry of Justice Experts Office and postponed to the 07/10/2020 session until the experts' report is received.
- 3- The judgment number 30640 for the judicial year 68 is being followed up, along with judgment number 36320 for the judicial year 96 at the Administrative Court of Alexandria, which were rendered in favor of the Company.

Fifth: Real estate tax

All claims for previous years have been paid until 2019.

❖ **Rights, privileges, and restrictions on dividends:**

N/A

❖ **Late dividends for the preferred shares:**

N/A

25- Dividends:

Profits shall be distributed at the end of the financial year after having the General Assembly approved the financial statements at the end of the financial year in accordance with the provisions of Law 203. The coupon value shall be calculated by dividing the shareholder's share by the number of shares (1489753400 shares), and the standard shall be applied by distributing the net profits to shareholders after setting aside the necessary reserves and the profit shares of the employees and the Board of Directors

The share in the dividends shall be calculated by dividing the shareholder's share of the profits by the actual number of shares, knowing that the Company's shares are ordinary.

26- Capital connections not recorded in books

Values are given in thousands of pounds

Item	Amount
TOS system	22510
The process of deepening and dredging the platform 96 (Suez Canal Authority)	10718
Supply of (2) yard winches	39794
Enhancing the efficiency of the Company's fences and construction of a building for drivers	3703

The process of deepening the platform 96, 350 meters long (second phase) (curtains & turnbuckle supply)	79457
Dredging the platform 96, 350 meters long	158400
Total	358630

27- Other clarifications:

- The Company's Board of Directors has approved the financial statements ending on 30/06/2020 on 22/09/2020
- As of the financial year ending on 30/06/2016, the marketing expenses were included in the profit and loss account and not in the trading account, under the Egyptian Accounting Standard No. (1).
- Real estate investment: The Wadi Cotton Ginning Company, which owns the Balina land, is currently registering the common interest in the name of the Marine and Land Transport Holding Company, under certificate No. 410/2018 issued by the Real Estate Registry Office on 03/12/2018, with the Holding Company to undertake the registration for the Company.

The process of deepening platform # 96 (The Canal Company for Ports):

The first stage has been completed with a length of 400 meters and the final extract is being received and the second stage is starting.

- Storage activity: This has been added to the Company's commercial register and tax card.

- The impact of the emerging coronavirus pandemic on the Company's business volume in the last quarter of the financial year 2019/2020
- The impact of the Coronavirus on the volume of the Company's business appeared in the last quarter of the financial year ending on 30/06/2020, as the number of containers has decreased compared to their counterparts in the same period of the previous year. The impact has increased in the first quarter of the beginning of the new financial year 2020/2021.
- The external yards were added to the free zone area as of 01/07/2020.
- The new Egyptian Accounting Standards will be amended under the decision No. (69) issued by the Minister of Investment and International Cooperation on 18/01/2019, starting from the next financial year. Among the most important amendments are the following:

New or revised standards	Summary of the most significant amendments	The potential impact on the financial statements
<ul style="list-style-type: none"> • The new Egyptian Accounting Standard No. 48 for revenue from contracts with clients 	<p>1- The new Egyptian Accounting Standard No. 48 for revenue from contracts with clients replaces and repeals the following standards:</p> <ul style="list-style-type: none"> • Egyptian Accounting Standard No. (8) - construction contracts • Egyptian Accounting Standard No. (11)- amended 	<p>Management shall evaluate the potential impact on the financial statements when applying the amendment to the standard.</p>

	<p>revenue 2015</p> <p>2- The control form was used for revenue recognition instead of the benefit-risk form.</p> <p>3- The additional costs of obtaining a contract with a client are recognized as an asset if the Establishment expects to recover those costs, as well as the costs of fulfilling a contract as an asset when specific conditions are met.</p> <p>4- The standard requires that the contract has a commercial essence for revenue to be recognized.</p> <p>5- Expanding disclosure and presentation requirements.</p>	
<ul style="list-style-type: none"> New Egyptian Accounting Standard No. (49)- Lease Contracts 	<p>1- The new Egyptian Accounting Standard No. (49)- Lease Contracts shall replace and repeal the Egyptian Accounting Standard No. (20) for the accounting rules and standards related to the financial leasing operations 2015.</p> <p>2- The standard provides one accounting model for the lessor and lessee, whereby the lessee recognizes the usufruct right of the leased asset within the</p>	<p>Management shall evaluate the potential impact on the financial statements when applying the amendment to the standard.</p>

	<p>Company's assets and recognizes the commitment that represents the present value of unpaid lease value within the Company's obligations, taking into account that the lease contracts are not liquidated for the lessee in the case of the operating lease contract or when it is a finance lease contract.</p> <p>3- Concerning the lessor, the lessor must classify each of his lease contracts either as a finance lease contract.</p> <p>4- Concerning the financial lease, the lessor must recognize the assets held under a finance lease contract in the financial position statement and present them as receivable sums in an amount equal to the net investment in the lease contract.</p> <p>5- For the operating lease, the lessor must recognize the lease payments from the operating lease contracts as income, either on a straight-line basis or any other regular basis.</p>	
<ul style="list-style-type: none"> New Egyptian Accounting 	<p>Some paragraphs have been added</p>	<p>Management shall</p>

<p>Standard No. (38) - "Employee Benefits"</p>	<p>and amended for reducing and settling the employee benefits system</p>	<p>evaluate the potential impact on the financial statements when applying the amendment to the standard.</p>
<p>• Amended Egyptian Accounting Standard No. (42) - "Cumulative Financial Statements"</p>	<p>Some paragraphs have been added concerning excluding the investment establishments from consolidation. This amendment has entailed the amendment of some standards related to the subject of investment establishments. The following are the standards that have been amended:</p> <ul style="list-style-type: none"> - Egyptian Accounting Standard No. (15) - "Disclosure of Related Parties" - Egyptian Accounting Standard No. (17) - "Independent Financial Statements" - Egyptian Accounting Standard No. (18) - "Investments in Associated Companies" - Egyptian Accounting Standard No. (24) - "income taxes" - Egyptian Accounting Standard No. (29) - "Business Combination" 	<p>Management is currently evaluating the potential impact on the financial statements when applying the amendment to the standard.</p>

	<p>- Egyptian Accounting Standard No. (30 - "Periodic Financial Statements"</p> <p>- Egyptian Accounting Standard No. (44) - "Disclosure of Shares in the other establishments"</p>	
<ul style="list-style-type: none"> Issuing Egyptian Accounting Interpretation No. 1 - "Public Service Concession Arrangements" 	<p>This interpretation guides accounting by operators of public service concession arrangements for a public entity and a private entity, for the construction, operation, and maintenance of infrastructure for public utilities - such as roads, bridges, tunnels, hospitals, airports, water distribution facilities, power supply facilities, communication networks, etc.</p> <p>This interpretation gives the option to invest in the application of the previous treatment of public service concession arrangements existing before January 1, 2019, for the establishments that were recognizing and measuring the assets of these arrangements as fixed under the Egyptian Accounting Standard No. 10 - "Fixed assets and their depreciation" until the expiry of the term thereof.</p>	<p>Management is currently evaluating the potential impact on the financial statements when applying the amendment to the standard.</p>
